

Romanson Dental Care

PATIENT NEWSLETTER

Produced for the Patients of Dr. Rand Luka and Dr. Paul Romanson

When you come to *Romanson Dental Care*, you know you are in great hands and can expect a great standard of care in every aspect

of your visit. For 42-years, Dr. Paul has taken care of your family's dental health, and Dr. Luka is honored to carry on this torch when Dr. Paul retires in a few years. During the transition while Dr. Paul reduces his hours, we are both committed to ensuring that Dr. Luka will ensure your oral health with the same expert hand.

You may notice over the coming months a few small changes to the look of the office. We are currently designing a new logo and have chosen a name for the office; we will be called *Luka Dental Care*. We have gone paperless and now offer *Invisalign*® clear braces (see more on the back page about our new technology and services). One thing that will not change is the level of care you are accustomed to.

We look forward to many years of taking care of you and your family's oral health.

Yours in continued dental health,
Dr. Paul & Dr. Luka

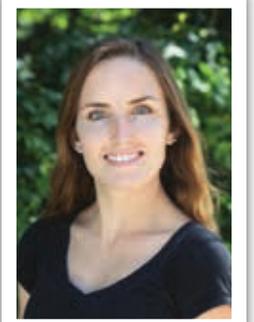

from the dentists

New Faces...

Same excellent care

Erin comes to *Romanson Dental Care* with 12 years' experience as a Dental Assistant. Born and raised in Exeter, after earning her CDA II from *Georgian College*, Erin moved to London to further her career. Erin and her husband Patrick are proud parents of a daughter Emma, and share their home with a dog Jake and three birds, Kirby, Jazz, and Lolly.

Also a Level II Dental Assistant, **Ashley** recently graduated from *Fanshaw College* and is thrilled to be starting her dental career with Dr. Luka and the team. When not at the practice, Ashley enjoys spending time with her dogs Keesha and Kia. She is very active volunteering with local charities, and enjoys travelling and camping.

Abby has been with us four months as a Dental Assistant after moving to London from Windsor. She has a firm belief that good oral health leads to overall well-being and is excited to further her career with the team at Romanson Dental. When not at the office, Abby is an active youth leader with her church and enjoys reading and working out.

A *Cambrian College* alumnus, our newest Dental Hygienist, **Brenna** joined the team six months ago. Born and raised on a farm in Petrolia, Brenna is enjoying her new community and the strong and friendly team here at Romanson Dental. In her spare time, she likes to practice yoga and train for marathons.

Keep Your Secret **With Invisalign**

The preferred method for straightening teeth used to be metal *train-track* braces. We are pleased to announce that Dr. Luka have recently become certified in *Invisalign*®, one of the most advanced components of adult cosmetics.

WHAT IS INVISALIGN?

It's a proven method for straightening teeth using a series of custom-made, nearly undetectable aligners.

HOW DOES INVISALIGN WORK?

Each aligner is precisely calibrated and manufactured to custom-fit over your teeth and gently move them through every stage of your treatment. There are no metal wires and brackets, and you can still enjoy your favorite foods, and brush and floss easily.

CAN I BENEFIT?

Adults account for nearly 25% of all orthodontic patients! The most common problems are crowded teeth, teeth spaced too far apart, protruding upper or lower teeth, and upper and lower front teeth that do not touch.

HOW DO I GET STARTED?

After consultation and deciding on a treatment plan, we take an impression of your teeth, and submit it to Invisalign. Using the latest 3-D computer technology, our instructions are translated into a series of medical-grade plastic aligners. You can view your own virtual treatment plan when you start, so you can see how great your straight teeth will look!

We know you'll be inspired to consider Invisalign! Please call us for a consultation.

Walking The Talk

We are extremely proud that our newsletter is sporting the *FSC*® logo, the gold standard for sustainable forestry. The Forest Stewardship Council is an international organization promoting environmentally responsible, socially beneficial, and economically viable forest management.

Printed on FSC certified paper using earth-friendly vegetable-based inks, each of our newsletters can be traced back to the forest from which it came – ensuring healthy forest management! This also makes these forests profitable, making it less likely that they will be sold for development.

We are so proud that we are using this product! It's just one more way to ensure that future generations will benefit from the majesty of our forests.

NEW SERVICES FOR YOU

No More Paper Trail!

We're cleaning up

Environmental consciousness takes a place in all aspects of our lives today, and dental care is no exception. Although we have already taken many steps to reduce our carbon footprint, we've decided to take it a little further and *have gone paperless!*

Now, there are no more paper forms to fill out and you can complete forms from the comfort of your home by visiting romansondentalcare.com and clicking *Patient Forms* on the homepage. If your name can't be found, call us and we'll add you right away.

By filling out forms at home, it saves us, and you, valuable time. If you don't get your forms filled out from home, you will need to arrive at least 15 minutes early for your appointment. Please join our paperless venture and complete all forms online prior to your appointment.
